

I recently held my third Telephone Town Hall to discuss health care reform. The Telephone Town Hall allowed me to connect with thousands of constituents to talk about the state of health care in California and across our nation. The enthusiasm of the callers was very impressive as we engaged in a discussion on a range of issues. I will bring the opinions and ideas of these participants back to Capitol Hill. Together we can improve our health care system and ensure a brighter tomorrow for our nation. Learn more about our discussion: Download the [full call](#) .
